

# The PFLITSCH MaxiCut

For maximum performance and convenience

# The PFLITSCH MaxiCut in detail

## Your Requirements – and how the MaxiCut fulfils them

- » Performing lots of cutting operations fast and efficiently
- » No reworking necessary because the cut parts have clean and burr-free edges
- » Reduced wastage and efficient use of materials thanks to precision working
- » Longer service life and better to work with thanks to optimised cutting plates
- » Great flexibility thanks to being able to use the machine where the trunking is to be installed
- » Easier and more comfortable to use with a work table
- » High level of safety thanks to effortless and safe handling
- » Time and cost savings thanks to fast and easy working
- » Rapid return on investment thanks to a good price-performance ratio

## Suitable for cutting:

- » PIK-Trunking 15/15 to 60/60, steel and stainless steel
- » Industrial-Trunking 50/50 to 200/100, steel and stainless steel

## Scope of delivery

- » The basic machine includes tool holder, worktable, digital length stop and stationary hydraulic unit

## Accessories

- » Tool floor cabinet
- » Tool holder for cutting plates
- » Set of rollers for mobile use
- » Conversion set for notching punch
