

The PFLITSCH MiniCut

Small insert with a big impact

The PFLITSCH MiniCut in detail

Your Requirements – and how the MiniCut fulfils them

- » Precision cutting to length of PIK-Trunking made of steel and stainless steel
- » Reliable cutting of parts with clean and burr-free edges
- » Reduced wastage and efficient use of materials thanks to precision working
- » Long service life thanks to cutting plates that can be reground
- » Time and cost savings thanks to fast and easy working
- » Optional positioning aid for precise alignment of the cable trunking sections (90°)
- » Rapid return on investment thanks to good price-performance ratio
- » The 1000 mm length stop and the hand lever for manual operation are included in the scope of delivery

Suitable for cutting:

- » PIK-Trunking 15/15 to 60/60, steel and stainless steel

Drives

- » Manual drive
- » Manual hydraulic drive
- » Conversion set for hydraulic unit (mains-operated)

Accessories

- » Analogue length stop included as standard (digital length stop optionally available)
- » Infeed aid included
